

ANZGS 2021

Saturday 20th February 2021			
8.30 - 8.35	Welcome	Welcome from ANZGS President	A/Prof Anne Brooks AM
		Chairs: Prof Ivan Goldberg & Dr Simon Skalicky	
8.35 - 8.50		The not so Xen experience	Dr Jed Lusthaus
8.50 - 9.05		Isolated ocular relapse of acute myeloid leukaemia precipitating secondary angle closure glaucoma	Dr Alannah Walsh
9.05 - 9.20		Bilateral blood reflux in Schlemm canals caused by a unilateral dural sinus arteriovenous fistula in a patient with cerebral venous thrombosis	Dr Tung Thanh Hoang
9.20 - 9.55	Lowe Lecture	Introduction - Professor Alex Hewitt Stem Cells for Glaucoma: Differentiation and Integration	Prof Jeffrey Goldberg
9.55 - 10.10		Morning Break	
10.10 - 10.15		Allergan Presentation	Ms Anne Taylor
10.30 - 10.45		Twelve-month Outcomes of XEN45 Gel Stent using Small Posterior Incision Sub-Tenon ab interno Insertion Technique (Semi-Open) Compared to Standard Closed-Conjunctiva Technique for Medically Uncontrolled Glaucoma	Dr George Kong
10.45 - 11.00		Congenital connection between the vitreous and the subarachnoid space was not associated with altered biomechanical behaviour	Dr Joshua Oskam
11.00 - 11.15		Colour vision defects in glaucoma are not systematically explained by short-wave automated perimetry	Dr Zung Mai
11.15 - 11.30		Short term safety and efficacy of phacoemulsification combined with Hemi-Ab interno canaloplasty (ABiC) and Hemi-gonioscopy assisted transluminal trabeculectomy (GATT) in primary open angle glaucoma: The Australian Experience	Dr Bentley Logan
11.30 - 12.30		Trabeculectomy Technique - ANZGS Consensus Group Panel: Lance Liu, Robert Casson, Helen Danesh-Meyer	Prof Graham Lee
12.30 - 13.30		ANZGS: Annual General Meeting	
Sunday 21st February 2021			
8.30 - 8.45		A Life Saving Tube	Dr Nicole Lim
8.45 - 9.00		Ab Interno Needling for Bleb Revision - a video presentation and digital simulation	Prof Graham Lee
9.00 - 9.15		A problem of gas transfer	Dr Hamish Dunn
9.15 - 9.50	Gillies Lecture	Introduction - Professor Alex Hewitt Glaucoma: Challenges for the 21st Century	Prof Robert Casson
9.50 - 10.00		RANZCO Update	Prof Nitin Verma AM
10.00 - 10.15		Morning Break	
10.15 - 10.30		Primary needling of the ab interno gelatin microstent reduces postoperative needling and follow-up requirements	Dr Nathan Kerr
10.30 - 10.45		Paediatric uveitic glaucoma in the time of biologic therapy	Dr Sophia Zagora
10.45 - 11.00		Characterising Ocular Blood Flow Changes with an Isometric Exercise Stimulus Using Optical Coherence Tomography Angiography in Healthy Participants.	Miss Georgia Neef
11.00 - 11.15		Creating a population-based visual field database for big-data research	Dr Siobhan Manners
11.15 - 11.30		Characterisation of Localised Wedge-Shaped Vessel Defects in Glaucoma	Miss Danit Saks
11.30 - 11.45		Trabeculectomy as initial management of uncontrolled pigmentary glaucoma secondary to cosmetic iris implants. Respecting the patient's wishes	Dr Catriona Downie
11.45 - 12.00		Refractive outcomes following lens extraction in nanophthalmos	Dr Kerr Brogan
12.00 - 12.15		Kahook Dual Blade Goniotomy: An audit of the first 101 cases in a tertiary university hospital in England	Dr Noor Ali
12.15 - 12.30		Glaucoma Australia presentation	Mrs Annie Gibbins
12.30 - 12.35		Conference Close: Prof Alex Hewitt & Prof Paul McCartney	
12.35 - 13.35		ANZGS Committee Meeting
